#### 23 What did you like most about this course?

Excellent instructor. The probability involving linear algebra is interesting and seems incredibly useful in many different disciplines.

Statistics is really useful and highly prevalent in many fields, and I was glad to finally gain some real knowledge on the topic.

The professor.

#### 24 What did you like least about this course?

Some of the topics had complex notations, but were really simple and uninteresting.

Very heavily focused on signal processing, so typical elements of other stats courses are missing (t-test, chi square, etc). Of course, that's not the point of the class, but I still wish I had the chance to learn more about statistics outside of strict signal processing applications.

#### 25 Comments

Dr. Cochran is an excellent lecturer. Homework was always challenging but relevant and help was always available for the assignments.
